- Excellent barrier to gas and aromas and outstanding sealing properties with PVCD, Wide sealing range with Acrylic
- Consistent machineability on a wide range of packaging machines
- Easy convertibility (printing and lamination)
- · Excellent optical properties
- · Water based coating

BOGOPHANE

## MATERIAL

Transparent OPP film, one side Acrylic and one side PVDC coated.

### APPLICATION

Particularly suitable for applications where an increased shelf life of packed products is required, together with an attractive presentation.

#### **HEALTH & SAFETY**

Specially developed for packing foods and meets the specific requirements on health and safety.

Complies with current US FDA and European food contact regulations.

### STORAGE

The reels should be kept in their original packaging until used.

It is recommended that films are stored below 30°C in order to minimize deterioration of film properties.

All films should be allowed to reach operation room temperature for 24 hours before use.
